Toronto, ON – March 18th, 2005 Mr. David Westrheim, President & CEO of **intelliNet**, announced the unveiling of a **Canada-Wide Infrastructure Support Program for Linux based systems** today, including support for **Red Hat Linux, Novell SUSE Linux, Netware Services, Unix** and all other versions of Linux. Microsoft environments in conjunction with these other technologies are also supported.

The program, called **intelliSupport Enterprise**, provides complete **Managed Services** as well as Systems Planning Consultation, Systems Integration & Deployment, IMAC (Installations, Moves, Adds & Changes) Services, **24x7 Help-Desk Support and On-Site Remedial Service anywhere in Canada within two hours**, with comprehensive **Service Level Agreements (SLAs)**. The Managed Services include proactive **Network Monitoring, Spam Filtering, Virus Blocking & Email Security, Intrusion Detection, Remote Back-Up & Disaster Recovery.**

According to Mr. David Westrheim; these types of IT Services are readily available across Canada for Microsoft environments, **but there is a void in the market for the same type of outsourced support for Linux, Unix & Netware environments.** As more corporate enterprise accounts continue to migrate towards these technologies, the need for mission-critical support services has developed , Westrheim added. He went on to say; **We have the infrastructure in place and expertise to support these environments .**

IntelliNet is kicking-off the introduction of the **intelliSupport Enterprise Program for Linux** at the **Massive 2005 Trade Show at Science World in Vancouver** on March 30th and at the **LinuxWorld and NetworkWorld Conferences & Expos in Toronto** on April 19th and 20th. In addition to information on the **Canadian National intelliSupport Enterprise Program for Linux**, IntelliNet will be displaying a sample of the **intelliNet Service Vehicles** that have been deployed throughout Canada allowing **intelliNet's 210 technical personnel to meet the SLA performance** requirements of Rapid On-Site Services **within two-hours, anywhere in Canada.**

Interested parties including **both potential clients and industry strategic partners** are invited to contact **Mr. Ali Juma, at 1-800-494-5123 extension 223** or email at ajuma@intellinet-canada.com for further information.
